

POWERSTAR® HQI®-T 1000/2000W

Technical Information

POWERSTAR® HQI®-T 1000/2000W

General product description

- Metal halide lamp with quartz POWERSTAR® technology
- Tubular & clear outer bulb
- High luminous flux and efficacy
- Neutral white N and daylight D
- Long life time

Basic technical description

Product reference	Nominal lamp wattage	Cap	Cor-related colour temp	Comp. Cap. @50hz, $\cos \varphi \approx 0.9$	Light colour code	Length max. (l)	Diameter (d)	Weight per piece	Light centre length (a)	Typical lamp voltage ¹	Typical lamp current ¹
	[W]		[K]	[μ F]		[mm]	[mm]	[g]	[mm]	[V]	[A]

² The specified values refer to 50 Hz operation with magnetic control gear at rated wattage, unless otherwise stated. They refer to horizontal burning position, in line with IEC 61167. Other burning positions may result in differing values.

³ With OSRAM POWERTRONIC PTi, PT-FIT or PT_o

⁴ Indicates the percentage of operational lamps after a given period of operation time.

Edition December 3, 2013; replaces edition August 30, 2013. Subject to change without notice. Errors and omissions excepted. Make sure to use the most recent edition.

Operation conditions

Product reference	Burning position	Max. permitted outer bulb temperature [°C]	Max. permitted base edge temperature [°C]	Ignition voltage min. / max. ⁵ [kV]	Required control gear ⁶	Suitable OSRAM electronic control gear	Dimming

HQI-T 2000W/D	<2	198
HQI-T 2000W/D/I	<2	198

- Compliant with safety specifications according to EN 62035
- Compliant with RoHS.
- Only for luminaires with protective shield according to IEC 60598-1
- For operation with an electromagnetic ballast⁷ a protection against rectifying effect at end-of-life required
- Staring to operating light source to be avoided because of high brightness

⁵ This limit is for security reasons

⁶ ECG stands for low frequency square wave electronic ballast. See the respective lamp data sheet in IEC 61167 and Annexes G and H, therein.

CCG stands for electromagnetic ballast (see IEC 61347).

⁷ See IEC 61347.
